

Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Original) An absorbent article including:
a first sheet leak preventer;
a second sheet leak preventer present above and in a rear part of the first leak preventer; and
an absorbent containing a super absorbent polymer, capable of absorbing a body fluid, and provided above the first leak preventer extending from a front part of the first leak preventer beneath the second leak preventer in at least one layer.
2. (Original) The absorbent article according to claim 1, in which a urine introduction part forming material is bonded to a part of a lower surface of a front end of the second leak preventer.
3. (Currently Amended) The absorbent article according to claim 1-~~or 2~~, further including a urine/feces stopping member in a front end or in a vicinity of the front end of the second leak preventer.
4. (Currently Amended) The absorbent article according to ~~any one of claims 1 to 3~~claim 1, in which the absorber is separated and provided on right and left sides in a front part of the first leak preventer.

5. (Currently Amended) The absorbent article according to ~~any one of claims 1 to 4~~claim 1, in which the absorber is separated and provided on right and left sides in a rear part of the first leak preventer.

6. (Currently Amended) The absorbent article according to ~~any one of claims 1 to 5~~claim 1, in which a part or entire periphery of the first leak preventer rises upward.

7. (Original) The absorbent article according to claim 6, in which right and left side walls of the first leak preventer are folded inward.

8. (Currently Amended) The absorbent article according to claim 6 ~~or 7~~, in which right and left side walls of the first leak preventer are formed into folded shape.

9. (Original) The absorbent article according to claim 8, in which the absorber is provided in each of at least two of two or more stepped-spaces defined by the right and left side walls of the first leak preventer formed into folded shape.

10. (Currently Amended) The absorbent article according to ~~any one of claims 1 to 9~~claim 1, in which a part or entire periphery of the second leak preventer rises upward.
